JIMINY CRICKET

(Left) Every time we develop a Floribunda with a brand-new color, it wins an All-America Award! First it was Fashion—then Vogue—last year Ma Perkins—and this year it's Jiminy Cricket! Yes, still another breath-taking new color in Floribundas...

...an unusual new CORAL-ROSE shade. From exquisite bud to open flower, Jiminy Cricket is different! Dainty little urn-shaped buds of TANGERINE-RED color set the entire plant

aglow and burst into delightful CORAL-ORANGE and VERMILION blended 3½-in. blooms! Beautifully formed flowers, full,

cup-shaped, softening to an enchanting coral-rose-pink. But awards are not given for color only! A prize Rose must be a winner in all respects. That's why Jiminy Cricket won the 1955 All-America Trials. The plant is extremely hardy, up to 4 ft. HIGH. Vigorous and healthy, it blooms from June until frost. (Pl. Pat. Applied For.) \$2.50 each; 3 for \$6.60; 12 for \$26.40

A Sensational New Brilliant Red! ALPINE GLOW

(Right) Breath-taking color makes Alpine Glow one of the outstanding new Floribundas. Very deep orange-red buds open up to 3 to 4-in., cup-shaped blooms of sharp vermilion-red, in strong bright clusters of 4 to 10 blooms. The plant grows 2½ to 3 ft. and is constantly in flower. Shiny, wax-like foliage forms an excellent contrast to the red blooms. In test gardens throughout the country, Alpine Glow has proved itself hardy and able to withstand severe temperature changes. (Prop. Rights Reserved.)

ORDER EARLY!

Send your order to-day. Please send remittance with your order; we do not ship C.O.D. All plants shipped to you postpaid.

OUR Guarantee IS YOUR PROTECTION

OUR GUARANTEE—We offer you only one grade of Rose—the finest. We unconditionally guarantee every plant we ship to be of first quality, true to name and class, sturdy and free from disease and to reach you in perfect condition.

We guarantee every plant to leave the next normal blooming period after planting. We will replace, period and free of charge, any plant which does not perform according to the above guarantee, providing you have carefully followed our directions for planting and care, and providing your report so states and is filed with us on or before August 1 on shipments made the preceding fall or spring.

Send copy of order on which replacements are being made when requesting a replacement.

YOUR RESPONSIBILITY—Roses need comparatively little care—especially the new improved varieties. But they must be given fertile soil, sun and water, and proper cultivation, to keep them vigorous. We send you plantlets and cultural instructions in each shipment. Follow these and you will be rewarded with healthy growth and prolific blooms.

The Rose Touched With Nature's Own Golden Color!

(Right) Just picture the *biggest*, fullest, most exquisite Rose you ever saw, bathed in a shimmering, shining coat of gold . . . and there you have Golden Masterpiece! Yes, here's the *biggest* yellow Rose you ever saw, with blooms UP TO 7½ IN. ACROSS! Almost as wide as this page! There's never been another "yellow" like it.

UNFADING Golden Yellow Color

For sheer size, Golden Masterpiece is in a class by itself . . . and for sheer beauty it is second to none. The buds are golden gems—streamlined, 1½ to 2 in. long, sometimes lightly edged with red. Slowly, majestically, they unfurl, revealing a still richer, yellow color inside . . . and finally you have the mammoth 6½ to 7½-in. blooms. The plant is strong, vigorous, hardy, from 2½ to 4 ft. high. (Pl. Pat. #1284.)

A New J&P Floribunda... Worthy of
a Famous Name!

BABY BLAZE

(Left)

For years Jackson & Perkins have been proud to offer the world-famous Blaze Climber. And now we are greatly pleased to offer ... for the first time anywhere... this famous Rose in the form of a captivating Floribunda. Prolific in flowering and richly warm in color, this cheerful Floribunda gives a new approach to red Roses. Delicate semi-cupped flowers have interesting fluted petals. A vigorous, 3-ft. bush produces an abundance of deep red, pointed buds that mature to velvety red. Finishing a few shades lighter, the bright color is much enhanced by the white eye at the center of the flower. Baby Blaze does not blue in any of its stages but stays a clean red until the last petals fall. In autumn the color intensifies to deeper tones, and the rich shade gains great praise from gardeners everywhere. The flowers are produced in large clusters of 10 to 25 on one shoot. Baby Blaze is excellent for group plantings, foundation plantings, hedges and the many uses around the home that the Floribundas have developed and is particularly effective as a base planting for the very popular Blaze Climber. Tiffany 1955 All-America Rose Selection

(Right) A cross of Charlotte Armstrong and Girona, this is a beautiful phlox-pink Hybrid Tea producing blooms of outstanding quality. The long-pointed buds are deep pink with golden yellow shading at base of petals. Perfectly formed, double, high-centered blooms of a pleasing shade of pink, with petals of heavy texture. The flowers have exceptional lasting qualities and are produced singly on long strong stems. This Rose is noted for its outstanding fragrance. Upright, very vigorous growth and beautiful dark green foliage. TIFFANY, named to honor Tiffany & Co. in New York, has received a Gold Certificate for its performance in the International Rose Test Garden, Portland, Oregon. (Pl. Pat. Applied For.)

Kate Smith, I liked this Rose from the very first moment and I am sure you will like the brand-new Kate Smith, too.

A Great New Rose Honoring America's First Lady of TV... Millions Love Her and Millions Will Love the Rose Named for Her

Kate Smith

(Right) Everyone will want this outstanding new everblooming Hybrid Tea for its own beauty and because it has been named for the First Lady of Television, Kate Smith, beloved in millions of homes across the nation. This lovely new Hybrid Tea Rose has clear rich apricot tones and a fragrance that is delightful. The form of the Rose is almost ideal, with its long bud and the slowly unfolding petals. It is the result of the successful blending of Golden Rapture, a beautifully formed Rose, and Ballet, also a beautiful Rose with a longer bud. It has retained the exquisite form and the well-leaved plants of the parents and has also developed a combination of fragrance which is very distinctive. The 4½ to 5½-in. flowers are very long lasting. In the garden, the plants grow vigorously and are heavily covered with foliage. It has proved a healthy grower in the East and West, and it bears promise of being one of America's future show Roses. We feel that Kate Smith Rose is an excellent selection and that it will remain a great favorite with American gardeners for years to come. (Pl. Pat. Applied For.)

Queen Elizabeth

**The Grandiflora Rose!
The First of a New Class of
Everblooming Roses!**

(Left) The superb pure pink tone of the choicest Cattleya orchids has at last been captured in the gorgeous new Queen Elizabeth Rose, All-America Winner for 1955. This charming new variety is the first of a new class, named "Grandiflora" for its abundance of bloom combined with the magnificent qualities of the Hybrid Tea. The unusually clear, glowing blooms are a subtle blending of soft carmine-rose and dawn-pink, majestically set off by deep green foliage. Because one of the parents is a Floribunda (Floradora) and the other a Hybrid Tea (Charlotte Armstrong) the flowers are carried both singly and in gay clusters. Now you can enjoy as many blooms as on a Floribunda, yet have the wonderful bud form, long-lasting larger flowers and magnificent cutting stems of the Hybrid Tea. (Pl. Pat. #1259.)

Winner of 5 International Awards!

(Above) Here's the gorgeous J & P Floribunda that won 5 International Awards before it was even offered to the public! That's right! Before we even announced that it was available, Vogue had already won top honors in France and Switzerland . . . had already been selected as the All-America Winner for 1952! And once you see it, you'll understand why the experts have called it the "Finest Floribunda created" since our own Fashion. The rich cherry-coral of Vogue is only one of its outstanding features. Its slow-opening buds evolve into perfectly formed blooms that are high centered and reach from 3 to 4 in. across. The graceful flowers are always in evidence in medium and large clusters all season long. 2½ to 3-ft., compact bush. (Pl. Pat. #926.)

6 International Awards!

(Left) Fashion, the All-America Selections Award Winner for 1950, is truly the greatest Floribunda ever created. Pointed oriental-red buds open gracefully. Lovely 3 to 3½-in. Hybrid Tea-shaped blooms are a brilliant luminous coral overlaid with gold. These exquisite blooms have 20 to 25 petals and are borne singly and in great clusters all season long. Fashion with its golden yellow stamens and graceful wavy petals provides you with an excellent source of cut flowers. The resolute bush reaches a height of 2½ to 3 ft. Medium-sized foliage is dark green and hangs on very well. Fashion's delicate, subtle fragrance is delightfully reminiscent of wild Roses. (Pl. Pat. #789.)

The Rose That Gardeners Took to Their Hearts!

Exquisite Ophelia-shaped buds of a translucent light Fashion color, graced by shades of red in the outer petals, make a startling change to graceful, cup-shaped, 3½ to 4-in. blooms of sparkling coral-shell-pink. A suffusion of yellow is present in all of the early stages, until at the very end of bloom it finishes a soft shell-pink. This generous, free bloomer has excellent spring and fall blooms that never fade or lose their sparkle. This 1953 Winner of the All-America Rose Selections Award has a strong, bushy plant that reaches 2½ to 3 ft. (Pl. Pat. #1143.)

Brilliant! Real "Fire-Engine Red"!

The brilliant fiery scarlet, ruffled flowers of Siren are a distinct addition to the Floribunda family. Graceful clusters of 4 to 5 blooms on sturdy stems create a clear and distinct color note. These 3 to 3½-in. blooms evolve from very dark red buds. Even in extreme heat, these blazing red flowers keep their form and color, setting your garden ablaze all season. The foliage, too, is attractive. (Pl. Pat. #1197.) \$2.25 each; 3 for \$6.00; 12 for \$21.00

WHITE SWAN

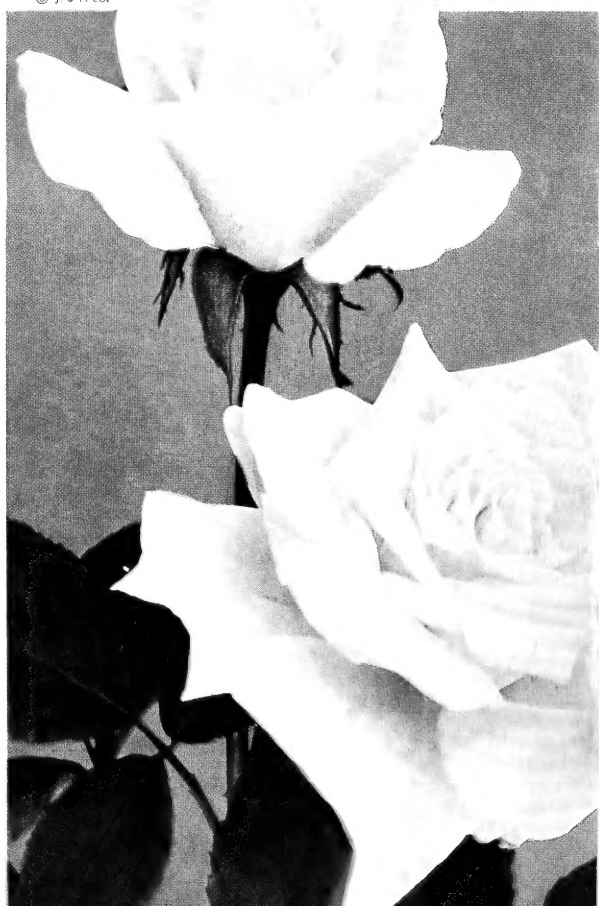

(Below) An outstanding white Rose with unusually fine exhibition qualities. One quality is the uprightness of the bush, which is rare in a white Rose, and still another is its pure white blooms. Long-pointed, graceful buds of alabaster-white open slowly to dazzling, stark white blooms up to 4 in. across. These elegant flowers are high centered and are reproduced freely on 2-ft. stems which enable you to enjoy White Swan in your garden and in bouquets. An enjoyable addition to any garden, White Swan's ample dark green foliage is disease resistant as well as eye catching. In addition to its startling blooms, its pleasing Rose fragrance though not dominant is very effective. The 3 to 4-ft. bush is vigorous and will stand up under adverse conditions. Imagine a dark green bush covered with glorious, pure white flowers. (Pl. Pat. #1115.)

Pageant

Inspired by Walt Disney's Technicolor
Movie "THE SWORD AND THE ROSE"

(Above) This magnificent new bicolor Hybrid Tea will fill your garden with all the color and pageantry of a royal coronation! The spectacular show starts in May . . . as the plant is gracefully clothed in a mantle of rich dark green. When the golden yellow buds are half open, they display a brilliant contrast of vermillion-red with the gold reverse. The red gradually turns to a deep, clear coral-rose-pink, an intriguing combination from start to finish. The petals of this beautiful Rose will drop off before they discolor. The exquisite 4½ to 5-in. blooms are borne on long stems. Lovely to look at, highly decorative in your garden, Pageant has a fragrance to go along with its beauty and color . . . a delicious raspberry scent. Hardy, vigorous and disease resistant. (Pl. THE *Best*

RED ROSE OF ALL TIME!

(Left) New Yorker, the epitome of Red Roses, dresses itself in red from beginning to end, starting with the new shoots of bright red. Buds of perfect form and texture open slowly to 6-in. blooms of resplendent scarlet with dark overtones of a rich velvety hue on each of the beautiful, well-shaped petals. The resolute bush is hardy and free blooming all season long. An abundance of velvety, disease-resistant foliage adorns the plant. New Yorker takes little care, often reaching a height of 3 to 3½ ft. Delightful raspberry fragrance. (Pl. Pat. #823.)

Diamond Jubilee

(Right) The warm, glowing buff-orange color and the old Rose fragrance make Diamond Jubilee the attraction of many a garden. The 5 to 6-in. high-centered blooms are borne on long graceful stems, making it excellent for bouquets. Opening slowly and lasting exceptionally well, the Roses will delight you all through the season. As a cut flower, Diamond Jubilee will last longer than other Roses. The hardy, 3½-ft. plant has upwards of 30 to 40 double, shapely flowers. Lush, dark green foliage. (Pl. Pat. #824.)

Sensational Hybrid Tea!

(Right) Large apricot buds open to grand, luscious peach-colored blooms. The outer perimeter of this new Rose is of longer buff-pink petals enclosing a full center of lively peach color. The flower is very double, reminiscent of some of the sweetly fragrant, full old-fashioned monthly Roses. Although modern in its flower production, its general appearance and its delightful effect, here is the Rose that answers the often-heard plea for "fullness and fragrance," like the Roses of old. The plant is bushy and the foliage is medium green. The $4\frac{1}{2}$ to 5-in., full double flowers are heavily perfumed with a very distinctive, sweet but richly spiced fragrance. Every garden should have a planting of this long-lasting newcomer, for its fragrance, its size and form and its friendly cheerfulness. Lodestar will give unbounded joy to new and old rosarians alike. Chrysler Imperial Rose

**All-America Award
Winner for 1953!**

(Left) Like a precious stone, Chrysler Imperial displays jewel-like tones of vivid crimson in the broad, open petals, heightened by the folds, retaining their sparkling beauty throughout the life of the flowers. A monochromatic Rose of dark, dramatic beauty! The play of shadows and lights accentuates this animated red Rose. Evolving from long, tapering, velvety maroon-red buds, the flowers of this lovely Rose, like the facets of a diamond, change with the play of light; the iridescent shades of red deepen and become more brilliant as they open to their full $4\frac{1}{2}$ to 5 in. The beautifully formed flowers have between 40 and 50 wide petals that are symmetrically arranged and overlapping. The compact bush has abundant, dark green foliage. (Pl. Pat. #1167.)

MOJAVE *All-America Award Winner for 1954!*

(Left) The only Hybrid Tea Rose to win an All-America award for 1954. The dominating color is apricot-orange . . . a glowing radiant orange, highlighted with other warm tints of nasturtium-red, scarlet and vermillion. The richly colored bud of Mojave is long and slender; the large, double flowers have about 25 petals and are pleasantly fragrant. Nearly every beautiful bloom is borne singly on a long, straight stem, which makes it a perfect Rose for cutting. Next to the unusual orange color, the extraordinary number of fine long-stemmed buds which it produces is the outstanding feature of this new Rose. The plant is tall and upright, so full of vigor that it produces a continuous succession of blooms from early spring until late fall. It is covered with large, glossy, handsome foliage. Mojave is a descendant of that earlier famous All-America Rose, Charlotte Armstrong, and has shown the same ability to adapt itself to all climates and Rose-growing areas. (Pl. Pat. #1176.)

Only One Grade—The Finest!

Ever since the first Hybrid Tea was produced in 1867, an endless parade of thousands of varieties has followed. Jackson & Perkins, the World's Largest Rose Growers, has been one of the leading contributors to this Parade of Modern Roses. For over 82 years our Research Department has made great strides in producing such outstanding Roses as the ones appearing in this catalog, which are not only Everblooming but are Guaranteed to be the finest available.

You will find in this catalog the choicest of Roses, among them the top All-America Award Winners. Hybrid Teas, the most popular of all Roses, promise to beautify your home and garden with enormous, richly colored blooms all season long for years to come.

NOTED FOR

PEACE (*Left*) Peace has already taken its distinguished place among the yellow Roses. The ovoid buds are golden yellow etched with pink. As they open, they change from canary-yellow to pale gold, to iridescent cream. The petals are edged with apple-blossom-pink, which deepens as the glorious 5 to 6-in. blooms slowly open. The plant is as superior as the bloom, hardy . . . vigorous . . . 3½ to 4 ft. . . disease resistant. Flowers are unusually large and are borne on heavy stems. Vigorous, shining, holly-like foliage. Best of all, the blooms are produced in glorious succession until frost. All-America Selections Award Winner for 1946. (Pl. Pat. #591.)

DETROITER (*Left*)

The most popular color in a Rose is red! Detroit is a welcome addition to the realm of red Roses and at the same time it honors one of America's most vital cities. Vibrant and alive with color, Detroit is endowed with buds of rich carmine-red with dark velvety overtones. Opening slowly, these buds give way to spectacular bright red, high-centered blooms that reach 5½ in. across and have 20 to 25 crisp petals. The tall plant has pleasing dark green foliage. Basal shoots make Detroit a strong, well-balanced plant. Long stems are excellent for cutting. (Pl. Pat. #1219.)

Giant Roses

FOR THEIR COLOSSAL SIZE AND BEAUTY!

REX ANDERSON (Right)

An outstanding exhibition Rose of delicate, lovely ivory-white . . . perfectly formed, slow opening, one of the most successful whites. Combining this lovely purity with artistic form and dependability, Rex Anderson adds a new note of interesting contrast to any Rose planting. Its very perfection of form and color simplicity are a dramatic contrast of great loveliness. Its fully double flowers may be grown to enormous size by disbudding. Exceptionally free and vigorous, with abundant gray-green foliage. Soft and fascinating scent. Another favorite we are proud to offer. Always an excellent choice if you wish to achieve a garden-spot effect of frosty white. A "must" for the "white garden." Awarded First Class Trial-Ground Certificate, National Rose Society, England. ENCHANTMENT (Left)

A delightful, everblooming Hybrid Tea that will be a high spot in your garden next June! In early season, it develops a great display of large, stately buds, apricot-tinged outside, deepening to clear yellow at the base. These open gracefully with high-centered form, producing huge, long-lasting blooms of entrancing peach-pink color. They attain 6 in. across at maturity, with as many as 35 petals per flower! Plants are vigorous and upright, growing 2 to 3 ft. high, with a wealth of dark green, disease-resistant foliage. It required years of careful breeding by experts to create this truly distinguished Rose . . . so be among the first in your neighborhood to display its enchanting beauty. The bush is never without flowers from June to late fall. Plant it this fall and have Enchantment for years to come. (Pl. Pat. #737.)

Everything Roses Should Be...

An Outstanding Hybrid Tea Named in Honor
of the 100th Anniversary of Newark, N. Y.

Centennial

(Right) A rare and pleasing combination of orange-apricot and light gold-colored buds. The open flowers become a glowing pink and gold combination in the most entrancing of all Rose forms, the high-centered Ophelia type. There are quantities of blooms constantly on the plant, and the rich green foliage gives a distinct background to the entire ensemble. We think that Centennial is one of our outstanding garden treasures and surely value it far above any others in the same class. It reaches a normal height, with a sturdy plant and vigorous, healthy foliage. A mellow, fruity fragrance enhances the beautiful Rose. We like Centennial, and so will you. (Prop. Rights Reserved.)

Color.....orange-apricot, pink and gold combination.
Bud.....light gold color.
Plant.....sturdy and vigorous, reaching normal height.

Fragrance...mellow, fruity, in keeping with the Rose.

Foliage...rich green and healthy.

Huntsman

A Sharp New Bicolor
... Does Not Blue Like
Most Other Bicolors!

(Below) This beautiful bicolor Rose from England is one of the freest bloomers we have ever seen. Huntsman is among the very first to burst forth in spring, and it blooms continuously, even in the hottest weather, right up until frost. A profuse, steady bloomer you're sure to want in your garden. The long, slightly rounded, red-and-yellow buds and the large, brilliant blooms of spectrum-red and orange-yellow are of exhibition quality. The plant itself is compact, reaching 2 ft., with abundant, dark holly-green foliage. A very nice Tea Rose fragrance adds charm. Looks well and lasts well. (Pl. Pat. #1012.)

Mardi Gras GAY! EXCITING! FESTIVE!

(Left) Mardi Gras is as exciting and gay as the festive season it celebrates. The bud is very dark red, and the flower keeps the full rich color. As the bud opens, the high center gradually unfolds and the outside petals reach to more than 5 in. in diameter, with a deep sparkling red color at the finish. The flowers are borne freely and the

plant attracts much attention. It thrives as well in hotter climates as in the rest of the country. The dark black-red flowers are capable of absorbing the heat of the sun and still retaining their deep color for an unusually long time. An amazing feat for a Rose! This long-lasting bloom has a pleasing Damask or old Rose fragrance that is well suited to its intense color. The 3½-ft. bush extends long, strong, vigorous canes and stems that make it excellent for cutting. An abundance of healthy, attractive foliage forms a perfect background for the Rose. (Pl. Pat. #1139.)

Bud. . . . black-red, nice shape.
Flower. . . . deep red, good to finish, exciting bloom.
Plant. . . . bushy, 3½ ft. tall; vigorous, long canes.
Foliage. . . . large, abundant, normal green, nice appearance.
Fragrance. . . . Damask or old Rose fragrance.

The Sparkling Golden Scepter

(Right) Golden Scepter is one of the most wanted yellow Roses in American gardens today. Its graceful, long-pointed buds of clear golden yellow do not fade but stay bright. The gorgeous blooms, reaching 5 to 5½ in. across, are high centered and sparkling with sunshine. Golden Scepter proudly begins to show its majestic beauty in June, when the tall, open plant bursts forth with dozens and dozens of slender yellow buds. Slowly and gracefully they unfurl into these large, exquisite yellow blooms. And these lovely flowers retain their rich color even when cut for home flower arrangements. The tall bush is vigorous and extremely easy to grow. A well-balanced plant reaches a height of 2½ to 3 ft. Its dark glossy foliage is healthy, as well as pleasing to the eye. A deep yellow Rose that really stands out among the reds and pinks in your garden. (Pl. Pat. #910.)

VOLCANO. REALLY HUGE! These are the only words that describe the tremendous size of the blooms produced on Volcano blooms that actually open as much as 7 IN. ACROSS! The flowers are a live, glowing cherry-red that seems to lighten the surroundings, and then slowly softens to a rosy pink. A strong, bushy plant with dark green foliage. (Pl. Pat. #951.)

SIGNORA. Buds are warm brownish orange, opening to lighter mandarin and salmon. Blooms are cupped, double (27 petals) and very fragrant, borne on long strong stems. Foliage rich, glossy dark green. Tall, vigorous growth. 30 to 36 in. A pronounced advance over the well-known President Hoover. (Pl. Pat. #201.)

McGREDY'S SUNSET. Tinted with delicate orange and rich scarlet. Best loved of the Irish Roses. Fragrance freshly sweet; generous when cut, haunting, old fashioned. A 20 to 30-in. bush covered with many blooms. The globular, double, well-shaped flower has 40 petals. Resistant to sun, hot weather and disease. (Pl. Pat. #317.)

Signora

McGredy's
Sunset

J. & P. CO.

SONATA. Cochineal-red in spring and fall, in summer lightening to unusual hues of deep lively pink. Outside of the petals is several shades darker than inside. The large flowers are perfectly shaped, opening gradually from long, pointed buds. Continuous bloomer, resistant to sun and heat. Very hardy, vigorous, upright growth. The dark green foliage contrasts beautifully with the flowers and completes the charm and artistry of the entire plant. Growing proudly erect on long, strong stems, Sonata blooms abundantly from spring to fall. (Pl. Pat. #732.)

SERENADE. Exquisite burnt-orange buds and 5-in., brilliant, coral-orange blooms, produced freely on 3 1/2-ft. plants. The edges of the petals are an interesting darker shade. The foliage is a shiny green and nicely balanced on the plant. It hangs on well and sturdily withstands ordinary Rose ills. In addition to being vigorous, the bush has a clean open habit. It has caused many very favorable comments from the testing stations that have had it. (Pl. Pat. #852.)

DICKSONS RED. This glowing scarlet-red Rose "has everything" . . . flashing color; large, high-centered form; rich fragrance; abundant, continuous bloom; strong, sturdy bush standing the hottest sun with color undimmed. Dicksons Red will continue to be one of the leading Roses for years to come. Height 2 ft. (Pl. Pat. #376.)

ELLINOR LE GRICE. An exceptionally large, bright golden yellow Rose that you can depend on for unfailing bloom. Keeps a steady pace, producing full double, 6-in. blooms constantly from June, week-in and week-out until frost. Full ovoid bud of deep yellow, changing to strong clear yellow as petals unfold. Striking in any garden. (Pl. Pat. #917.)

KATHERINE T. MARSHALL. The All-America Winning Pink Rose. Grows vigorously with large, open, upright blooms of friendly, warm glowing pink. Bred to hardiness and perfect form. The growth and foliage are equal to the Radiance family. Fruity fragrance. Long fine stems, ideal for cutting. Highly praised in all sections of the country. Height 3 to 4 ft. (Pl. Pat. #607.)

RUBAIYAT. A brilliant red with a profusion of long, graceful buds appearing early in June. As the buds open, releasing their wealth of old Rose fragrance, a glorious riot of deep, scintillating crimson is revealed in the very hearts of the blooms. This vivid burst of color is accentuated on the outside of the petals by a tone shades lighter. You'll be delighted with the unflagging production of the extra large flowers. Height 4 ft. (Pl. Pat. #758.)

MANDALAY. Long-pointed, golden yellow buds unfold gracefully to large, high-centered blooms. These golden yellow flowers open slowly and perfectly and have as many as 40 unfading petals that are firm and long. Flowers up to 6 in. across. The ample, heavy foliage is very dark green. The 3-ft. plant is very free blooming. (Pl. Pat. #775.)

VALIANT. A bold red with a particularly lovely bud. The bloom is luminous crimson, becoming bright red as it opens. High centered and bold in its color and erect manner. Frequently 5 to 6 in. across, with about 30 tea-scented petals. Bushy, upright grower. Height 2 to 3 ft. (Pl. Pat. #914.)

REX ANDERSON. An outstanding exhibition Rose of delicate, lovely ivory-white . . . perfectly formed, slow-opening. Its perfection of form and color simplicity are a dramatic contrast of great loveliness. 2 to 2½ ft., disease-resistant foliage. Vigorous, upright growth. (Pl. Pat. #335.)

GREY PEARL (Top Left Corner)

Sensational color from bud to mature bloom. A rare combination of warm tan and olive marks the ovoid, pointed bud. As it opens slowly, its 40 to 50 petals become lavender-grey with some shadings of olive and tan. The color tones vary at different seasons. They range from ripe olive grey tinted deep pink through mauve and mauve violet. 4 to 4½ in., double, high-centered blooms. The 2 to 2½ ft. plant is very hardy and vigorous. (Pl. Pat. #680.)

FRED HOWARD (Above) The blooms of this 1952 All-America Selections Award Winner are like a painting by a fine artist, with their rich yellow coloring and delicate penciling of light pink on the edges of the petals. The 4-in. blooms are very double and high centered and are produced on long heavy stems appropriate for cutting. Fred Howard displays a profusion of bloom late into the fall, beautifying your home and property all season long. The extremely hardy bush reaches 3 to 5 ft., depending on the locality. (Pl. Pat. #1006.)

NEIGE PARFUM (Above)

For the fullest appreciation of a fragrant white Rose, let your choice be Neige Parfum. Its purity of color is much enhanced by the copious, breath taking, lemon verbena aroma. The early bud has slightest tinge of cream, then delicate lemon as it unfolds; in full bloom a beautiful white, peony form. Plant reaches 2 to 2½ ft. Greatly admired for bud vases and white floral arrangements. Neige Parfum will be a constant source of pride and joy in your garden next summer because of its remarkable fragrance. Rich dark green foliage.

TUDOR (Left)

A long bud of the regal Tudor style. The high-centered flowers that follow open very slowly and gracefully. A bold red Hybrid Tea with a particularly lovely bud that proudly displays its perfection of form, standing erect on a strong stem. The bud seems anxious to call attention to itself . . . so proud of its superiority. The equally lovely bloom is a breath-taking strawberry-red which progresses to a lustrous scarlet-red flame as it opens. The high centered, stately bloom opens to 5 in. across. A hardy, vigorous grower with blooms you can depend on for outstanding performance in your garden next summer. The plant makes tall growth and produces great quantities of foliage. (Pl. Pat. #1223.)

- ★**BETTER TIMES.** Brilliant cerise blooms with long stems. Pronounced and enchanting fragrance. A hardy plant, medium tall.
- ★**CRIMSON GLORY.** In survey after survey, Crimson Glory has repeatedly been one of the ten most popular Roses in America. It is so beautiful and at the same time so dependable that it deserves a place in every Rose garden. Beautifully formed blooms of deep vivid crimson, held proudly on vigorous bushes. Its fascinating fragrance alone would make Crimson Glory an instant favorite. Voted by far the most fragrant Rose by the American Rose Society. Height 2 to 2½ ft.
- ★**CONDESA DE SASTAGO.** Two-toned coppery pink inside, golden tint outside.
- ★**COUNTESS VANDAL.** Acclaimed as the most artistic bloom in rosedom. Copper, bronze and pink, flooded with gold and reflexed with silver. Most widely used exhibition Rose. Very effective in table arrangements. A good plant of moderate size.
- ★**ETOILE DE HOLLANDE.** Bright red; large; loose; semi-double; fragrant. Vigorous. One of the most dependable and free-blooming older Hybrid Teas.
- ★**ECLIPSE.** Streamlined and modern . . . these slim tapering buds set a mark in grace and daintiness, often exceeding 2 in. in length! The best all-purpose brilliant golden yellow Rose in all climates! Plants are vigorous, producing abundant bloom.
- ★**McGredy's Yellow.** Large, bright buttercup-yellow. Exquisite bud and flower. Probably the best known of McGredy Roses.
- ★**MRS. PIERRE S. DU PONT.** Deep golden yellow, slightly lighter with age; semi-double.

- ★**LYDIA.** A clear, vivid yellow, cup-shaped bloom with handsome contrasting foliage admired by all who have seen it in our garden and in tests throughout the country. Although not a tall grower, this variety is a constant source of colorful flowers. The very deep green, glossy foliage is itself decorative, and the rich clear yellow blooms glitter in contrast. The plant is very hardy, medium tall, and bushy. The flowers, although not large, lend themselves well to cutting and are graceful in arrangements. (Trial #4095.)
- ★**NUMA FAY.** Very full-petaled; light coral-pink, satiny and fragrant. Free-blooming.
- ★**POINSETTIA.** Long, pointed, perfect buds; glowing fire-red. Vigorous. Fine for cutting.
- ★**PRESIDENT HERBERT HOOVER.** Maroon and orange, two-tone. For years this has been the most popular two-tone Rose. Vigorous; free-blooming; fragrant.
- ★**Radiance.** Cameo-pink; large, intensely fragrant. Blooms all season, in all climates. Tall.
- ★**Red Radiance.** Very large; long-lasting; intensely fragrant; clear, even red. Tall.
- ★**The Doctor.** Sparkling pink buds. 5 to 6-in. blooms.
- ★**WHITE BRIARCLIFF.** One of the daintiest and most delightful of all white Roses. Produces great quantities of pure white flowers throughout the season. Fragrant and long-lived. It will make a splendid showing outdoors and will lend itself to many interesting combinations for bouquets. Height 24 to 30 in.

(Right) The brilliant orange-scarlet color of Independence is so vivid that words or color illustrations just cannot do it justice. Borne in clusters of 6 or more, its vivid color is superbly accented by its rich glossy foliage. This new variety grows from 2½ to 3 ft. in height, producing great quantities of foliage and forming a very compact bush. Independence does not fade or lose its color in the sun and possesses a moderate old-fashioned Tea Rose fragrance. This beautiful Rose actually produces blooms up to 4 in. across - really huge for a Floribunda. This new color is definitely one of the most scintillating hues we have ever seen. Very aptly named because its striking color reminds one of the valor of the battle for freedom. A truly lovely Rose. One that will enhance your garden for years. (Pl. Pat. #1036.)

WHITEST of All Floribundas!

GLACIER

(Left) Like a cool refreshing balm for the warm summer days, Glacier's large blooms are an improvement over its parent's, the Floribunda Summer Snow. The slow opening of the glistening white buds is interesting to watch. They open up to smooth satiny white flowers that present a clear white effect. When open the flower will reach as much as 4½ in. across, really large for a Floribunda, and will last unusually well. The flowers, borne either singly or in clusters, have a fresh, moderate fragrance. Reaching from 2 to 2½ ft., the bush is hardy and branchy. Glacier is vigorous and extremely easy to grow. You will be delighted with its large white blooms that cover the plant from June until frost. (Pl. Pat. #1025.)

Floribunda Roses!

Floribundas—truly they are "Roses for Everybody's Garden," ideal in all the varying climates of America, giving your garden a June-day appearance from spring till heavy frost. Superb in borders, among evergreens and perennials, for spots of color anywhere in garden and grounds. In addition to these newer uses, they are also planted wherever one would use Hybrid Teas.

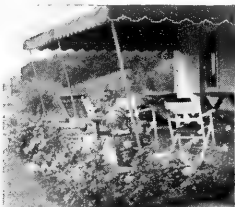

FLORIBUNDAS are ideal for border planting.

ALL SEASON BLOOM!

Hardy! Versatile! Masses of color. Great clusters of flowers even on a single branch. Floribundas have a place in any landscape . . . any garden . . . because they combine the best features you want in a truly "all-season bloom." They are ideal for mass display, in borders with flowering shrubs to give color after the shrub bloom is past, among evergreens, as hedges or in any other location where you want a splash of gay color all summer. The flower clusters lend themselves well to arrangements of many interesting types. Floribundas even grow in intriguing bouquet patterns. Gay and informal, their multitude of bloom suggests countless decorative uses. They are about the easiest of all flowers to arrange in bouquets. The gorgeous, long-lasting sprays almost "arrange" themselves when put in a bowl or vase. Floribundas are also the delight of those who have made a study of the art of flower arranging, presenting unlimited possibilities for prize-winning effects in the shows.

THE 20th CENTURY ROSE!

The most talked-about development in Rosedom! Floribundas were created to meet the need for a hardier, more rugged, easy-to-grow race of Roses that would provide an alluring array of colors, sizes and forms. For continuous color you can't beat Floribundas. Let them beautify your garden.

PROUDLY PRESENTS

ITS GREATEST

Parade of

24

REDDEST of All Floribundas!

Independence

NEW

FIRECRACKER
RED!

Gold Medal at Portland

(Right) The brilliant orange-scarlet color of Independence is so vivid that words or color illustrations just cannot do it justice. Borne in clusters of 6 or more, its vivid color is superbly accented by its rich glossy foliage. This new variety grows from 2½ to 3 ft. in height, producing great quantities of foliage and forming a very compact bush. Independence does not fade or lose its color in the sun and possesses a moderate old-fashioned Tea Rose fragrance. This beautiful Rose actually produces blooms up to 4 in. across—really huge for a Floribunda. This new color is definitely one of the most scintillating hues we have ever seen. Very aptly named because its striking color reminds one of the valor of the battle for freedom. A truly lovely Rose. One that will enhance your garden for years. (Pl. Pat. #1036.)

Color...Orange-scarlet center; redder
cast on reverse.

Flower...4 in. across, cupped.

Please Read Following When You Order

IMPORTANT—

*Please
Help Us to
Help You!*

When filling out your order it is most important for *all members of the same household* to order under one name.

In order to help us keep our records straight please use your address plus your zone number which we have imprinted on the front of the catalog envelope. If for some reason this address should be incorrect, please attach a slip of paper to your order correcting the address.

We are also finding cases where customers are using a borough or a suburb of a city and also the city itself. For example, Bronx and New York City or Germantown and Philadelphia. Again please use your city or borough as imprinted on the front of the catalog envelope.

It would be greatly appreciated if you would help us to see that your orders are sent to you correctly without any delay.

HOW TO REMIT

The best way to send payment is by check, U. S. Postal Notes or by Post Office or Express Money Order. Do not send stamps or cash because we cannot assume any responsibility unless sent by registered mail.

SHIPPING DATES

We will send your order at the proper time for planting in your locality. It is not necessary for you to specify a shipping date.

ITEMS NOT LISTED

Any variety of Roses, Perennials or other material which is not listed on the order blank or in the catalog is unavailable for the current season. Plants not listed will be in our future catalogs when available.

PLEASE DO NOT ASK US TO CHANGE YOUR ORDER

We handle thousands of orders within a very short season, and it is impractical to locate individual orders for changes. We want to accommodate our customers but it is impossible to find any particular order quickly during the shipping season.

Free... at Christmas time they receive this beautiful Rose Souvenir Package

Next Spring...

at the proper planting time they receive their roses!

IT'S ALL SO EASY HERE'S ALL YOU HAVE TO DO!

1. Make your selection of gift plants from the favorites listed above. Or, if you prefer, choose any plants or groups listed in the catalog. On this offer, each gift order must be for at least \$5.00. Fill out NOW the special Christmas Order Blank enclosed with this catalog.

2. Just before Christmas we will send out the free souvenir packages, containing the beautiful Token-Rose, with a holiday greeting card. The greeting card opens up to form a holiday Gift-Certificate, listing your name and that of your friend. It tells the names of the plants (NOT THE PRICES) and states that they will be sent later, in time for spring planting.

3. In the spring, at the proper planting time, we will send the plants postpaid to those to whom you have presented them. They will be in perfect condition, all ready to start growing as soon as they are planted. In the summer and fall, year after year, your friends will continue to enjoy your gift. And they'll appreciate your thoughtfulness in choosing this unique way to remember them at Christmas.

NEW!

INSTANT ROSE FOOD

Here is a product recommended by J. & P.'s Research Department that every gardener should use. We use this in our own Rose Garden with excellent results as a supplementary feed. Happy, healthy roses require a liberal supply of the right

fertilizer. This new J. & P. Instant Rose Food is the best water-soluble fertilizer available. A small quantity will accomplish wonders for you, keeping your roses growing luxuriantly all season. Easily applied, very economical and quick acting. You can see the plants improve within a few days after applying. Excellent also as pre-dip for plants before setting them out.

Jackson & Perkins Midget Duster!

A new hand-operated rotary—the smallest in the world, yet capable of throwing an 8-foot stream of dust—has been specially developed for the average home gardener. It weighs only 1½ lbs. and holds enough dust to cover 200 rose bushes without refilling. Its light finger-tip control makes it ideal for home-garden use. Known as the J. & P. Midget Duster, it is sold exclusively by the Jackson & Perkins Co. All metal, even to its pistol-grip handle, the J. & P. Midget Duster is made of an alloy which never rusts. A minimum of moving parts reduces the possibility of mechanical failure. It may be expected to last a lifetime of normal use. Filling the duster is a simple operation. Just lift the lid and pour in the dust; then close the lid, and it is ready for use.

EVER-BLOOMING! **BETTY PRIOR**

The Most Persistent Bloomer Of All!

The Floribunda No One Ever Tires Of!

UNUSUALLY TALL! FALL-FLOWERING!

(Left) Betty Prior, the Floribunda that no one ever tires of, is always a mass of bloom. Plant Betty Prior for hedges, specimens, foundation plantings. Use it in beds, for borders or backgrounds. It is the best Rose for curb plantings. As the center of attraction or just to beautify your home, Betty Prior will provide fun for your family as well as delightful masses of color. Delicate pink; spicy fragrance. In June its colorful myriads of blossoms are a glorious sight. All through the summer the buds and flowers, resembling red dogwood, continue to attract interest. Buds are lively red, opening shell-pink, having 5 petals, dogwood-like in shape, size and color. The healthy, vigorous plants are sturdy yet delicate in appearance. In beds, borders, hedges, groups and large plantings, Betty Prior gives gorgeous mass color effects and many cut flowers. Tallest of all Floribundas, excellent for the background of a Rose garden or perennial border. An established plant in a sheltered position will grow 4 ft. tall or more. Large bloom clusters in spring and continuously all season. Abundantly branched, with lush green foliage. Betty Prior is extremely hardy. (Pl. Pat. #340.)

CLUSTERS OF FLOWERS!
ALWAYS IN BLOOM!

(Left) Thousands of our customers know and love the widely acclaimed Pinocchio Rose. Its delicate beauty goes straight to your heart. Great clusters of gracefully pointed buds of rich salmon flushed with gold at the base open up to long-lasting, exhibition-formed blooms like miniature Hybrid Teas. As the "sweetheart" flowers open, they change to soft lucid pink and shade into deeper pink at the edges. This persistent bloom continues all summer long. The 20 to 24-in. plant is extremely hardy. The ample, rich dark green foliage is very disease resistant. The cool pink masses are refreshing in mass planting and edgings for paths, drives, beds and borders. Carefree as the puppet Pinocchio are the captivating buds and blooms of this perennial favorite. (Pl. Pat. #484.)

"PAPA" GEPPETTO'S MARIONETTE

(Right) Thousands who prefer white Floribundas for mass plantings in conspicuous garden spots choose Marionette. All that is said of Pinocchio can be said of Marionette except for its color. Think of these dainty creamy yellow "sweetheart" buds in your garden and home. There is added interest in the unfolding of the fully double flowers, about 1½ in. across, as the pastel tint changes gracefully to immaculate white before the flowers finish. Unbelievable clusters are produced repeatedly all during the season. Marionette is, in rosarians' language, a true "sport" of Pinocchio. Generous to the utmost, with hundreds of flowers on every bush. (Pl. Pat. #569.)

JIMINY CRICKET

(Right)

The NEW 1955 All-America Award Winner!

(Right) A pert new Floribunda with masses of tangerine-red buds which open to a sharp coral-orange vermillion and finish a pink-coral, almost like Fashion. The unusual coloring is the result of a crossing of Geranium Red, which has blended and softened this red to a very lovely new coral-rose shade. Although it does not have the same Geranium Red fragrance, Jiminy Cricket has a distinctive, pleasing Damask scent. The bush is covered with glossy green foliage; young foliage is glossy bronze, attractive even without flowers. The color never blues or becomes unpleasant, and the Rose is intriguing in the garden and when cut. In beds, Jiminy Cricket is very appealing and when used in conjunction with other Floribundas gives a full background and tone. Upright, 4-ft. bush. (Prop. Rights Reserved.)

Here you have a combination of the best qualities of two of our most popular Floribundas, Pinocchio and Donald Prior. The 3 1/2-in. flowers are borne in large, long-lasting, unfading clusters, with individual blooms scattered between the mass flowerings. Color is a rich dancing carmine, which deepens and acquires a velvety cast as it fully opens. It finishes with the same lovely cup-shaped bloom as Pinocchio and a color richer and more handsome than Donald Prior. The buds are attractive deep satiny carmine on the outside of the petals and a bright carmine on the inside . . . all a lovely picture. The bushy, upright plant is rich and vigorous, exceptionally free-flowering on long, heavy shoots. A fitting companion for the very popular parents; will quickly win its way into your heart. (Pl. GERANIUM RED (Above)

Imagine a Rose the color of a red geranium! That looks like a geranium and has the same spicy fragrance of a geranium!

The 4-in., camellia-like flowers of vivid spectrum-red border on the scarlet of the old-fashioned geranium. Heavily scented with the sweet heady fragrance of rose-geranium, it will brighten your garden or your home with its freshness. When the buds first appear, they are a dark oxblood-red, winning your heart as they open slowly, and the tumbled pattern of inner petals shows a brighter color in lovely contrast to the dark buds. The blooms appear both in clusters and on single stems.

Geranium Red is in a class by itself because of its unusual color and utterly amazing geranium fragrance. (Pl. Pat. #811.)

GOLDILOCKS (Above)

The long-awaited true golden Floribunda! Somewhere in your garden this mass of glorious sunshine will delight you from early spring all through summer and fall. Blooms last a long time, as fresh new buds keep replenishing the over-all effect of a golden yellow mass. The buds in each of the many clusters are ovoid in shape, resembling miniature Hybrid Teas in form, and a rich golden yellow in color. They open slowly and gracefully, passing through many attractive stages. The flowers are cupped at first and gradually open to 3½ in. across. Plants have a dense, spreading, well-balanced habit of growth, reaching a height of 2½ ft. or taller. Be sure to make a place in your garden . . . border, bed, specimen or base planting . . . for Goldilocks. (Pl. Pat. #672.)

Summer Snow**PINK BOUNTIFUL (Right Above)**

Large and delicate, but lasting bloom clusters provide a profuse mass of color all summer. When fully open, the colorful flowers measure up to 3 in. across, looking like miniature Hybrid Teas. Because of this, Pink Bountiful will go equally well in your Rose beds or in mass plantings. Its profusion of season-long bloom, delightful color and fragrance make it effective in any location. The ovoid buds, tinted deep reddish pink, unfold demurely into flowers with a buff-salmon pink heart flushing into deeper pink at the outer petals. (Pl. Pat. #601.)

SUMMER SNOW (Right)

Fabulous clusters throughout the season, from June to late fall. Starts early in the season with a magnificent display that covers the plant with masses of 2-in. blooms . . . 12 to 15 on each cluster. Then throughout the season new flowers develop as fast as the old ones fade, providing a continuous display for mass plantings or beds. Plants are about 20 in. tall, with light green foliage. This makes it one of the most popular Floribundas for hedges. Regardless of what you have in your garden, Summer Snow in groups will make it more interesting . . . more delightful . . . more beautiful. (Pl. Pat. #416.)

For Variety, Plant These

ALL J&P Floribundas A re!

GARNETTE (Left) Garnette, introduced in 1951 for the first time to America's gardens, is one of the widely used Roses in the florist trade today. Surely everyone has seen Garnette displayed at flower shows throughout the nation. And anyone who has received a corsage of petite red Roses for that "special occasion" has undoubtedly worn Garnette. Its red "sweetheart" sized flowers are so desirable that you, too, will want this tiny gem in your garden. The abundant masses of crinkled, holly-like foliage remind one of Christmas time. This variety reaches a height of only 18 in. It will enhance your garden.

ROCHESTER, The Original Floribunda. (Below, Left)

One of the finest of all Floribundas, created in our own Department of Plant Research. All season long, Rochester will give you enchanting blooms—"stardust refined to gold." Printers' ink cannot do justice to the very soft light yellow tones, more attractive than this picture by far. No other double Rose yields more blooms per plant. The medium large flowers produce a breath-taking sensation.

\$1.50 each; 3 for \$3.90; 12 for \$15.60; 25 for \$30.00

Yellow Pinocchio

(Below). Another thrilling Pinocchio with great masses of apricot-yellow bloom and the same sturdy bush. The plant grows about 3 ft. tall and when at its peak of bloom is a rounded mound of yellow. The petite buds have touches of red on the outside petals. The foliage is dark green, tough and very disease resistant. This sturdy, healthy and free-flowering member of the Pinocchio family is a welcome addition to the Floribunda Roses and is bound to become as popular as its far-famed parent. (Pl. Pat. #992.)

Lavender Pinocchio

Lavender Pinocchio (Right)

An entirely new color in roses—a true clear lavender enriched by masses of golden yellow stamens. A delight to all who love to arrange cut flowers. The buds of Lavender Pinocchio are a light chocolate-brown when they first show color, and as they progress the petals change to a smoky pink-lavender with frilled rosy pink edges and brilliant yellow stamens. Lavender Pinocchio is a true Floribunda, and it carries all the important characteristics of this splendid group. (Pl. Pat. #947.)

MASQUERADE (Below, Right)

Truly novel and different! Each flowering cluster brings a cavalcade of fiesta colors—yellow, red, pink, lemon and sometimes orange, all appearing at one time in a magnetic combination. The golden yellow center bud in each cluster opens first, becoming rose-pink as the petals unfold. Gradually the rose-pink deepens until at last it is deep red. While the first bud in each cluster is going through these stages, other buds are developing, each one passing through the same lovely color sequence. 10 to 25 buds to a cluster. Vigorous, 3 ft. plants; rather open growth. (Pl. Pat. #975.)

WHERE THE NEW BLAZE CAME FROM

Years ago, we discovered one particular plant that outbloomed and outperformed all others in our nursery. During July, August and September, this amazing plant continued to bloom constantly . . . so we used it as a parent plant from which to multiply this new strain of Blaze. You'll really love this new Everblooming Blaze . . . for it produces more blooms more often . . . giving you literally thousands of Roses every season, after it becomes established. Yes, thousands of exquisite 2 to 3 in., cup-shaped, scarlet-red flowers on just one plant—and one plant costs only \$1.50. No other plant in all Rosedom gives you so much beauty, so much color, for so long a time—for so little cost!

But remember this! This new Blaze was discovered and propagated by Jackson & Perkins Plant Research Department AND IS A J & P EXCLUSIVE! You cannot get this New Blaze from anyone else. Be sure to get yours now.

NEW DAWN (Left) One of the hardiest Everblooming Climbers! New Dawn repeats its perfect Hybrid-Tea-like blooms continuously all season. Have glorious Roses with the precious pink of apple blossoms and a delicate appealing old Rose fragrance in profusion on a plant that is easy to grow, requires little care and takes little ground. The trim, perfectly formed, pointed buds are most artistic in their appeal, superb for use in bouquets and arrangements. They have fine long stems. Sturdy canes grow rapidly; even one plant makes a gorgeous display on trellis, arbor or fence.

Buds . . . exquisite, dainty pink flushed with deeper tones.

NEW EVERBLOOMING!

(Above)

The new climber with full, striking, Hybrid-Tea-sized blooms produced in profusion in June and again in August. The charming flowers come either in clusters or singly on the blooming stems. These rich, clear deep red blooms fade only slightly at the finish. The very double flowers have from 40 to 50 firm petals that are

long lasting without burning in the sun. The plant grows rapidly when established, reaching 7 to 8 ft. in height. When mature, the foliage is a dark glossy green; the young leaves are a very decorative red, enhancing the plant even before the buds appear. This is a very different red climber which promises to be very popular. (Prop. Rights Reserved.)

EVERBLOOMING! PARADE

(Right) A great everblooming Climber with masses of delightful red flowers appearing singly and in clusters in spring and throughout the season. Parade is one of the most active of the hardy modern Climbers. In spring it is covered with a burst of rose-red flowers 4 to 5 in. in diameter, filled with delightful spicy fragrance. By fall it has sent up many new shoots and branches and is again a mass of blooms. Parade grows very easily in full sunlight as well as in semi-shade. (Pl. Pat. #1253.)

JACKSON & PERKINS CO.
World's Largest Rose Grower

Note: The truly everblooming yellow Climbing Rose! Gardeners from coast to coast have had the Floribunda Goldilocks for years and have loved its gorgeous golden color and its ability to bloom and bloom all summer long. Now this truly magnificent Rose can be enjoyed as a Climber! The buds of Goldilocks are ovoid in shape, resembling miniature Hybrid Teas in form, and a rich golden yellow in color. As the buds gracefully open to 3½ in. they last for a long time, for fresh new buds keep replenishing the overall effect of a golden yellow mass. Just like the Floribunda, Goldilocks as a Climber also blooms in large clusters. It is extremely vigorous and hardy, will grow 6 to 10 ft. in one year and will bloom the first year it is planted. Be sure to make a place for this fine new everblooming Climber somewhere in your garden. (Pl. Pat. 1693)

Climbing Pinocchio

(Below)

This new Climbing Rose will surely speak for itself! Since 1941 this great Rose has been the most widely used Floribunda in the world. Anyone who knows Roses knows Pinocchio. And now, it pleases us beyond description to bring it to America's gardens as a Climber. Pinocchio, with its winsome buds of a rich appealing salmon, blooms so exuberantly that the word everblooming seems inadequate! It also possesses an exotic fruity fragrance, and when brought indoors a spray will often keep from 8 to 10 days. Of course, it is unrivaled for boutonnières. Pinocchio, too, is very vigorous and hardy and will produce an unbelievable amount of blooms from June to frost. Flowers are identical to those of the famous Floribunda Pinocchio. (Pl. Pat. #1142.) \$2.50 each; 3 for \$6.60; 12 for \$26.10

Climbing CRIMSON GLORY

(Above) For years Crimson Glory has been one of the most popular Roses in existence. When you plant this popular crimson Hybrid Tea in the form of a Climber, you add an unequalled touch of splendor to your garden. This luxuriant, vigorous, fast-climbing plant is covered with beautifully formed blooms of deep vivid crimson . . . each on a strong, sturdy stem. Following a magnificent June display, Climbing Crimson Glory continues to re-bloom freely during July, August and September. Generous beauty of form and color is showered on your garden. The deep red buds are urn-shaped and gradually unfold into full, perfectly formed, high-centered blooms. In northern areas where sub-zero temperatures occur, Climbing Crimson Glory should be planted in a sheltered location and have some protection against winter injury. (Pl. Pat. #736.)

Climbing SUMMER SNOW

(Above) Wherever this enchanting, pure white Climbing Rose is planted—the fairest white Climber—it quickly fills out to illuminate the scene with myriads of clusters of pure white, loosely double flowers almost completely covering the plant, like mountains of snow. And these attractive white blooms repeat this amazing display all through the summer and fall—often they are the last flowers in our garden when killing frosts come in November.

The spotless, glistening, glacier-white, double blooms are 2 in. across, effectively set off with golden stamens when full open, adding to the charm of their large clusters in bouquets and arrangements. There are very few thorns. Summer Snow is so abundantly generous, one never need hesitate to cut enough for use in the home. (Pl. Pat. #400.)

(Below) At last!—a brand new everblooming Climber with a CORAL-PINK color! Yes, a sparkling deep coral-pink... the color that has become so popular in bush Roses, but unavailable in a Climber, *until now*. The color really *lasts*... from the dainty pointed buds to the slow opening, graceful, long lasting, 4 1/2-in. blooms.

This new color is Coral Dawn's main attraction—but it is a superior Climber in every other respect too. It bears clusters of from three to twenty buds. The lustrous, dark green foliage is disease-resistant and sets off the coral-pink flowers. This brand new Climber is very easy to grow, does extremely well in all regions. (Pl. Pat. #1117.)

Why these trees are ideal for you!

Now you can plant Apple trees in even the smallest garden plot and enjoy them all your life without ever crowding out your roses, perennials or other flowers. These amazing midget trees will bear fruit very young. When four years old, they will be in full bearing, with larger, more colorful Apples than you would get from larger trees. . . yet these amazing Dwarf Apple trees grow only 5 to 6 ft. tall and do not interfere with other plants growing around them. Early in the season every branch will be covered with lovely fragrant blooms. So profuse, so handsome, they are a garden decoration in themselves. Ideal for the modest garden where you don't have room for large fruit trees. Trees may be planted as close as 6 ft. apart. Unless there are other trees nearby, plant two or more varieties to be sure of correct pollination.

TO PLANT
LILACS

These gorgeous French Hybrids far surpass all others. Larger florets, richer colors, broader spikes, more to a cluster. Every variety is faster growing and younger blooming. Fragrant beyond description. Own-root not budded, so wild sucker growth will never bother you. For infinite long life, rapid growth and every-year bloom, these strong 3-yr. plants are worth ten times as much as the old-fashioned varieties.

Many Start Blooming Next Year!

THOUSANDS of these plants have already set flower-buds this summer. Many bloomed last May. You may have some flowers next spring—you'll have PLENTY the following year, and EVERY YEAR! Grown the longer way at higher cost (own-root, not budded, so wild sucker growth can never come)—for long life, rapid growth, and every-year bloom. Worth ten times as much as old-fashioned kinds.

Loveliest Kinds and Colors. These Six Pictured

- d Paul Thirion. Bright rich red buds open to an intense rosy claret, revealing beautiful double flowers in enormous clusters. Free bloomer.
- d Katharine Havemeyer. A gorgeous mass of double, rosy lavender flowers, very full with immense spikes. A soft shade of the lovely lilac color.
- s Lucie Baltet. The pinkest of all Lilacs . . . blooms freely . . . with immense single flowers, stately and tall. Blooms in huge clusters that make a striking display in the garden, shrub border, or as a single specimen plant.
- s President Lincoln. Single flowers $\frac{3}{4}$ in. or more across, purplish blue in bud . . . opening to a true blue. It is considered the best of the blues. Very vigorous and early in bloom.
- d Paul Harriot. Rich glowing purple buds opening to a true royal purple. Large, double flowers. Considered the deepest and darkest of all. The depth of color and rich texture make this a favorite everywhere.
- d Ellen Willmott. Extremely prolific, immense, double flowers of purest alabaster-white. Large, branched panicles; round flowers. Rated as excellent. Late bloomer. A dependable free-blooming white.

JACKSON & PERKINS

Christmas Rose

Blooms Outdoors from October to March!

Roses in winter! Not real roses, of course, but the much-prized Christmas Rose. Actually blooms in late fall, at Christmas and until spring. This variety (*Helleborus niger altifolius*) is superior to *H. niger*. Grown by J. & P. from divisions of flowering plants, it will become established quickly and will bloom in the fall.

Blooms All Winter on Mild Days

Even when there is snow on the ground, it takes only a couple of mild days for this miraculous plant to produce its glacier-white blooms. The lovely 5-petaled flowers are 2 to 3 in. across, with a center of yellow stamens. Strong 6 to 8-in. stems hold blooms above the low, leathery foliage.

Beautiful Masses for Low Plantings

Suitable for a protected place in front of evergreens or shrubs because of its rich low foliage and unusual flowers when nothing else is blooming. Set where it is partially shaded in summer but receives winter sun, the Christmas Rose will form a broad low mass of handsome green. Once established, it should not be moved.

June-July Astilbe, Koblenz 24 to 30 in.

June-July Astilbe, White Gloria 28 to 30 in.

Aug. Oct. White Veronica subsessilis 2 to 2½ ft.

ASTILBE, Koblenz (Left) A feathery rose-pink changing to silvery pink. Excellent for the darker corners of your garden. The foliage stays beautiful all season. Grows in sun or shade. 85¢ each; 3 for \$2.25; 6 for \$1.25.

ASTILBE, White Gloria (Above) Wide, feathery white spikes 28 to 30 in. high, rising at least 12 to 15 in. above the foliage. Established plants frequently produce 18 blossoms. Prefers partial shade, rich soil. 85¢ each; 3 for \$2.25; 6 for \$1.25.

WHITEVERONICA (Top Right) (Subsessilis) The contrast of the rich green foliage and the sparkling white spikes is extremely effective. Healthy and vigorous, giving a wealth of bloom from Aug. to Oct. 2 to 2½ ft. (Pl. Pat. #1034.) \$1.25 each; 3 for \$3.15; 6 for \$6.25.

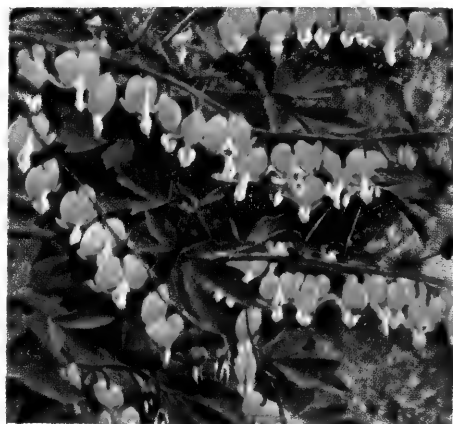

SHASTA DAISY, Jennifer Read (Left) Improved sport of Esther Read. Blooms a little later and much more freely. When established, produces 25 to 30-in., long-stemmed blooms. (Pl. Pat. #1125.) \$1.25 each; 3 for \$3.15; 6 for \$6.25.

PINK BLEEDING-HEART (Right) Graceful sprays from May to late June. Does well in semi-shade or sun. About 30 in. tall. Long lived, becoming larger every year. 85¢ each; 3 for \$2.50; 6 for \$1.25; 12 for \$3.50.

MONARDA, Croftway Pink (Below Left) A clear pink Monarda. It does well in moist or dry positions and in sun or semi-shade. Plants should be divided every second spring. The flowers appear continuously in large heads. \$1.00 each; 3 for \$2.50; 6 for \$5.00.

MONARDA, Cambridge Scarlet (Below) Blooms freely in July, Aug., and Sept. Brilliant scarlet flowers make a splash of color for difficult and shady spots. Height 2½ to 3 ft. \$1.00 each; 3 for \$2.50; 6 for \$5.00.

SHASTA DAISY, Wirral Supreme (Below Right) Glistening white flowers, 3 to 3½ in. across, fully double. A compact, 2½-ft. plant, absolutely hardy. Blooms in June and July and if cut then will produce again in fall. (Pl. Pat. #1084.) \$1.25 each; 3 for \$3.15; 6 for \$6.25.

JACKSON & PERKINS FAMOUS

GIANT DELP

HAPPINESS (Left)

Exceptionally large individual florets of warm pink-lavender. Clear blue at the tips of the outer petals. The unusually large spikes are full, firm and sturdy, a new step forward in the Delphinium family and a joy to behold. Plant in groups of 3 or more with Delphinium Enchantment for beautiful contrast. Has the vigor and hardness of the Northern New York strain, with larger florets and greater mass effect.

\$1.25 each; 3 for \$3.15; 6 for \$6.25

FREEDOM (Below)

White, with black-and-white "bees." Will "pop up" any garden. This variety is in great demand because it is an excellent color to accent a perennial border. Stunning in all-white bouquets or in combination with bright colors. 4½ to 5 ft. tall. Striking in groups or with other Delphinium hybrids.

85c each; 3 for \$2.25;
6 for \$4.25

DELIGHTFUL (Below)

Deep blue. The rare, real all-blue, in the darker shades so hard to get. Good with other colors. Glorious background for lower-ground flowers. 5 ft. tall. This is what you have in mind when you speak of dark, rich "Delphinium-blue." It is a glorious color badly needed in most perennial plantings.

85c each; 3 for \$2.25;
6 for \$4.25

LOVELINESS (Below)

Another contribution to the new large-flowered Delphinium strain. Immense, semi-double florets 3½ to 4 in. across. Each floret is a beautiful orchid-lavender with a white center and accentuated on the far edges with tiny points of sea-blue. Height 4 to 4½ ft. Repeats rapidly in summer, again in fall.

\$1.50 each; 3 for \$3.75;
6 for \$7.50

"ALL-OUT-AT-ONCE" SPIKES

Handsone, long-lasting, all-out-at-once, 20 to 30-in. spikes with giant all-double flowers closely set on towering 5-ft. spires. Four to six such spikes to a plant in June and July, repeating bloom in the late summer and early fall.

Glorious

GUARANTEED TO BLOOM

was to provide trim and sturdy stalks not easily blown down by the wind . . . yet not cumbersome and stiff in bouquets. You will find that J & P Delphiniums do not need staking in most localities. A few groups of 3 or 5 plants will glorify your garden with full, strong flower-stalks holding their stately heads in regal dignity, making the garden more beautiful than ever before.

PEACE (Below)

Individual florets are $3\frac{1}{2}$ to 4 in. across. The face of each floret is a clear white with a lovely cream bee. Blooms in June and July. If cut back immediately when through blooming will quickly give another crop of giant flowers. Reaches a height of 4 ft.

\$1.50 each; 3 for \$3.75;
6 for \$7.50

DESIRABLE (Below)

Deep violet. Truly distinct in its velvety violet-purple florets strikingly accented with pleasing white "bees" or eyes—on $4\frac{1}{2}$ -ft. spikes that are resistant to wind and storms. And the color holds very well. Really dramatic, both in the garden and in bouquets.

\$5e each; 3 for \$2.25;
6 for \$1.25

DEBUTANTE (Below)

White. Clean, sparkling, tall spires, dramatic in a white garden, with other colors, or by itself. The chaste white double florets are closely set on the trim spikes, adding to their fine accent effect. A cool and refreshing touch in any garden in July, just when it is needed most. 4 ft. tall.

\$5e each; 3 for \$2.25;
6 for \$1.25

GLORIOUS (Right)

Deep royal purple, by far the darkest and richest of all Delphiniums. The long, beautiful spikes are all out-at-once in blooming; no shattering until the last buds are fully open. Stems are wiry and strong. The plant repeats quickly and is always perfectly hardy. $4\frac{1}{2}$ ft. tall.

\$1.00 each; 3 for \$2.50; 6 for \$5.00

ENCHANTMENT (Below)

Light blue. True Delphinium-blue, with white eyes . . . the hybridists' dream! A giant double Delphinium with superb masses of bloom on all-out-at-once spikes. 4 ft. tall. Adds interest to any garden. Striking in a white vase. A real milestone in Delphinium achievement.

Keep Your Garden Glowing with Color

HARDY EXCLUSIVE "BIRD"

A GOLDFINCH. Sparkling $4\frac{1}{2}$ -in. blooms of golden yellow. Flower is perfect; strong, stiff, frost-resistant petals. A true combination of a yellow greenhouse variety and our hardy Northern New York strain. Vigorous, 3 to $3\frac{1}{2}$ -ft. plants. Blooms Sept. 15 to frost. (Pl. Pat. #1166.)

B TOWHEE. Starts red with reverse of petals golden; $3\frac{1}{2}$ -in. flowers soften to a gold-tipped maroon and finish a lovely red bronze. Grows about $2\frac{1}{2}$ ft. tall, covered with large, full, pompon-shaped flowers. Blooms Sept. to frost. (Pl. Pat. #1169.)

C SEAGULL. The giant size and airy grace of this new Mum will make it an immediate favorite. 4 to 5-in. flowers. Compact cream-colored centers with pure white outer petals. Blooms early Sept. Height 24 to 30 in. This new variety is one of the largest of this new J&P strain of Mums. (Pl. Pat. #1130.)

D SWALLOW. Beautiful soft coral-pink opening into a double, buff-colored flower, about 4 to $4\frac{3}{4}$ in. across. Lovely irregular petals have a pleasing informal effect in all stages. Blooms from early Sept. to frost and grows to 3 ft. Ideal as a cut flower. (Pl. Pat. #1106.)

E GROSBEAK. With its smart pink petals and rich bronze centers, this new delicate Mum is unusual and worthwhile. The combination of two-tone effect and the deep green foliage of plant makes an excellent show from Sept. to Oct. Producing $3\frac{1}{2}$ -in. flowers on 3-ft. plants, Grosbeak lasts well when cut. (Pl. Pat. #1132.)

F WOOD DUCK.

Wood Duck is a deep rose-pink backed with an intriguing creamy tan reverse. Stiff long stems and dozens of blooms on each plant. Individual flowers are easily $4\frac{1}{2}$ to 5 in. across and much larger when disbudded for specimens. $2\frac{1}{2}$ to 3 ft. tall. (Pl. Pat. Applied For.)

G ROBIN. A new color in the hardy Bird Series. Strawberry-red when in bud and partially open and warm strawberry-bronze when open. The flowers are very double, $4\frac{1}{2}$ to 5 in. in diameter and almost 3 in. through, like a compound dahlia type. (Pl. Pat. Applied For.)

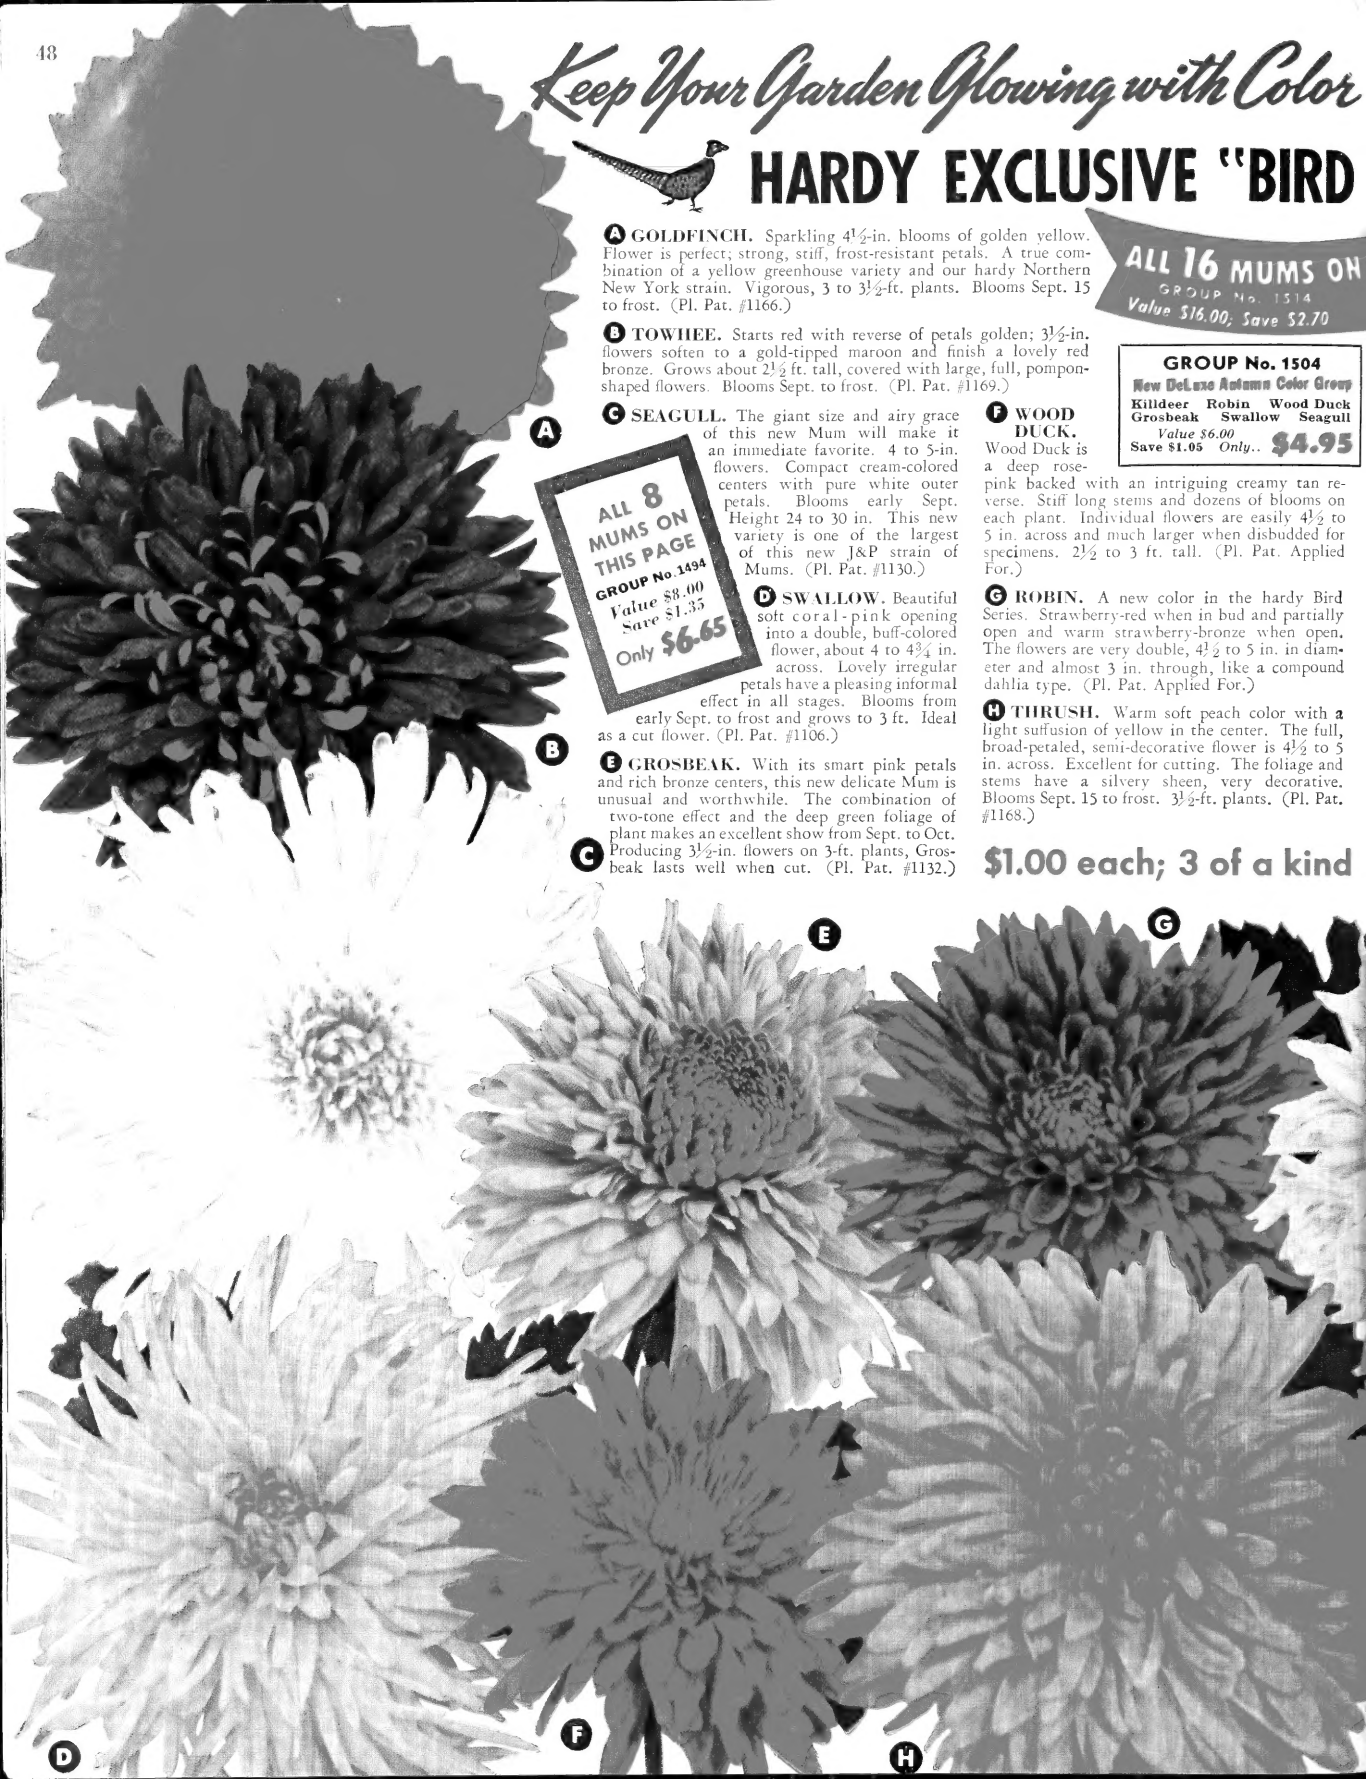

H THRUSH. Warm soft peach color with a light suffusion of yellow in the center. The full, broad-petaled, semi-decorative flower is $4\frac{1}{2}$ to 5 in. across. Excellent for cutting. The foliage and stems have a silvery sheen, very decorative. Blooms Sept. 15 to frost. $3\frac{1}{2}$ -ft. plants. (Pl. Pat. #1168.)

lightening at edges, with the petals arranged like the crest of the Cockatoo. A lovely variety with 4 to 4½-in. flowers. Petals hold their form to the end. Grows 3 ft.; blooms early Sept. till frost. Prefers full sunlight. (Pl. Pat. #1171.)

M MEADOWLARK. A gay golden tan decorative flower, which is delightful in the autumn colorama. Flowers are 3½ to 4-in. across and are produced in great quantities. It is definitely hardy, having lived through the last four winters here in northern New York. Height 3 ft. (Pl. Pat. Applied For.)

K KILLDEER. A lovely new color in the Mum world! Opens to bright golden bronze. The frilled petals are 3 to 3½-in. across. 2 to 2½-ft. plants . . . beautiful dark green foliage. Blooms early Sept. through Oct. Is very frost resistant, firm and long lasting. (Pl. Pat. #1131.)

L TANAGER. As pretty and cheery as its namesake. 3 to 3½-in., bright crimson-cherry-red flowers. Free blooming! Truly the leading red Mum. Blooms Sept. through Oct. . . . very resistant to frost. Grows 2½ ft. (Pl. Pat. #1129.)

M CANARY. Clean-cut color of the blooms makes this Mum one of the best yellows available. The perfectly symmetrical, 3½ to 4-in. flowers are beautiful rich golden yellow. Reaches 24 to 30-in. height. It's an excellent keeper when cut for indoors. Truly a very outstanding variety. Blooms Sept. and Oct. (Pl. Pat. #1113.)

I COCKATOO. Clean
lemon to
cream-white,

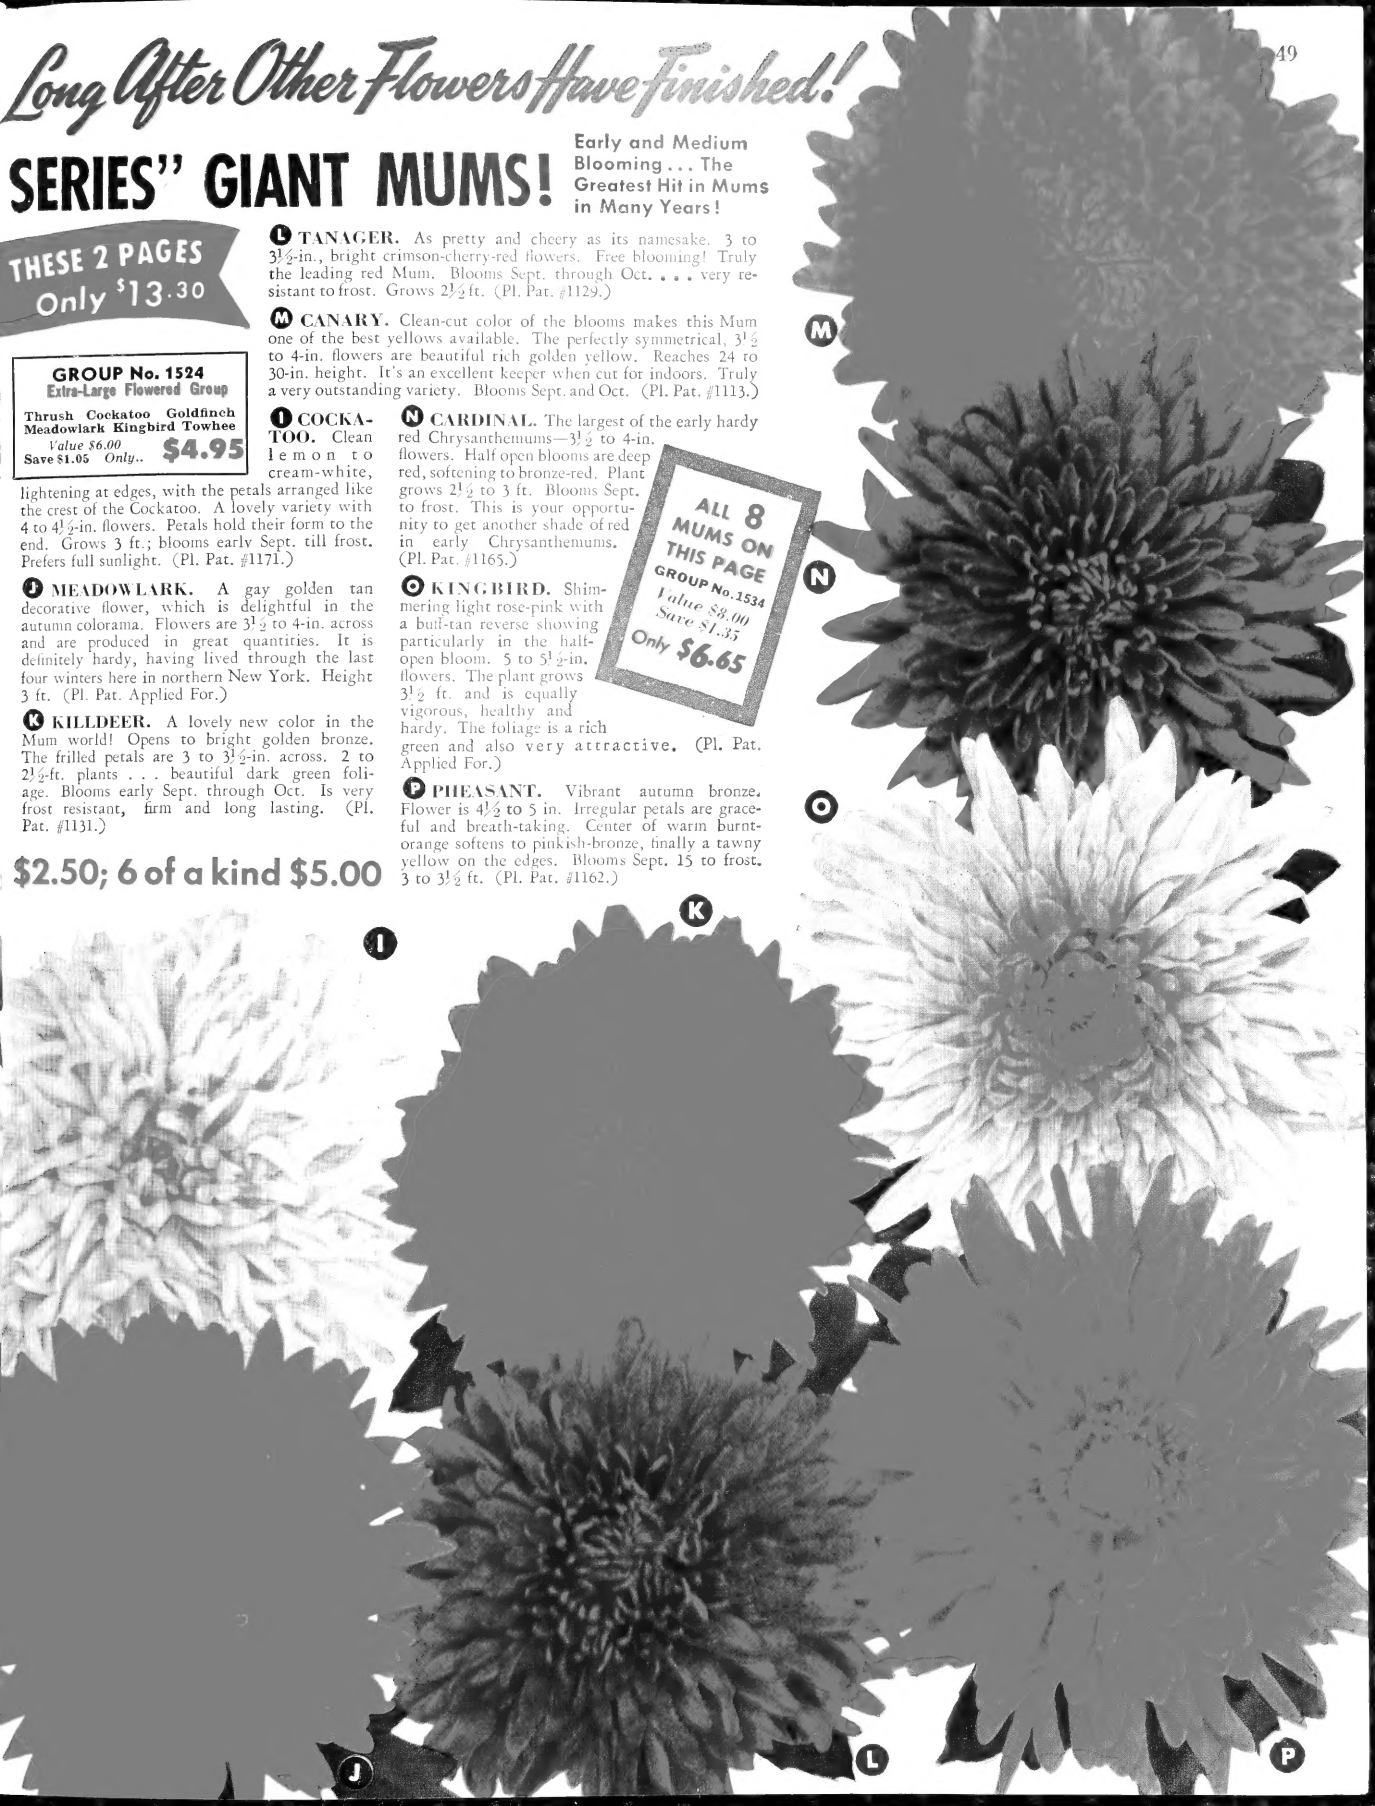

N CARDINAL. The largest of the early hardy red Chrysanthemums—3½ to 4-in. flowers. Half open blooms are deep red, softening to bronze-red. Plant grows 2½ to 3 ft. Blooms Sept. to frost. This is your opportunity to get another shade of red in early Chrysanthemums. (Pl. Pat. #1165.)

O KINGBIRD. Shimmering light rose-pink with a buff-tan reverse showing particularly in the half-open bloom. 5 to 5½-in. flowers. The plant grows 3½ ft. and is equally vigorous, healthy and hardy. The foliage is a rich green and also very attractive. (Pl. Pat. Applied For.)

P PHEASANT. Vibrant autumn bronze. Flower is 4½ to 5 in. Irregular petals are graceful and breath-taking. Center of warm burnt-orange softens to pinkish-bronze, finally a tawny yellow on the edges. Blooms Sept. 15 to frost. 3 to 3½ ft. (Pl. Pat. #1162.)
